

Sequencing Instructions Project Evidence

Put together the following evidence of your work and bring it with you to the next lesson:

1. Your original hand drawn sprite
2. The instructions that you originally wrote on paper in order to create the sprite. It doesn't matter if you needed to change them, just highlight anything that you changed and explain why it was necessary.
3. A colour print out of your completed sprite that you drew using LOGO
4. A print out or copy of the instructions from LOGO which were used to create the sprite.
5. Annotate the printed LOGO instructions to highlight any procedures you used. Explain what these procedures are doing.
6. Project Summary Square

Make sure all of your work has your name on it.
