TEACHER'S ANSWER

A spreadsheet can be used to try out lots of different things e.g. you can see what would happen if you put the cost of something up or down. This is called 'modelling'.

You may:

- Guide teachers or students to access this resource from the teach-ict.com site
- Print out enough copies to use during the lesson

You may not:

- Adapt or build on this work
- Save this resource to a school network or VLE
- Republish this resource on the internet

A subscription will enable you to access an editable version and save it on your protected network or VLE
