

## DRM Debate

- You will work in groups of four
- Two of you will argue for DRM, two of you against.
- You will be given a list of possible arguments. They are only pointers to guide you. Try to use your own knowledge and views to explain your point more thoroughly.
- When the opposing pair brings up a point, don't just counter it with one from your list. Discuss their point fully, but from your point-of-view
