

Name

Transport, technology and the future

Undertake your own research and find out how technology might change the way that we travel in the future and the types of transport that we might use.

Save appropriate images to your area, giving them a sensible name.

Some ideas to get you started:

- Self driving cars
- Teleportation
- Unmanned aeroplanes or ships
- Transforming transportation – cars that fly, ships that drive, planes that swim
- Cars that respond to you and the environment – automatically set the seating position, change the temperature, read your emotions and play appropriate music

Some suggested search terms (also try to come up with your own)

- Cars of the future
- Air travel in the future
- Transport in the future
- Future transport technology

Website visited	Information that I found out

You may:

- Guide teachers or students to access this resource from the teach-ict.com site
- Print out enough copies to use during the lesson

You may not:

- Adapt or build on this work
- Save this resource to a school network or VLE
- Republish this resource on the internet

A subscription will enable you to access an editable version and save it on your protected network or VLE
