

Name

Artificial intelligence in the future

Undertake your own research and find out we might develop artificial intelligence in the future to make computers and robots take on different tasks.

Save appropriate images to your area, giving them a sensible name.

Some ideas to get you started:

- Computers that predict the future
- Computers that can compose original music
- Computers that diagnose and prescribe treatments for patients
- Computers that resolve legal disputes
- Computers as friends

Website visited	Information that I found out

You may:

- Guide teachers or students to access this resource from the teach-ict.com site
- Print out enough copies to use during the lesson

You may not:

- Adapt or build on this work
- Save this resource to a school network or VLE
- Republish this resource on the internet

A subscription will enable you to access an editable version and save it on your protected network or VLE
